Modern man has only been around for four hours. During the last hour man discovered agriculture. The industrial Revolution and the rise of large cities began just sixty seconds ago.

During that short time, modern man has made a rubbish tip of the Earth .In one minute, he has increased his numbers to terrible proportions and has caused the death of hundreds of species of animals .He has robbed and destroyed the planet in his search for fuels. The forests of the tropics produce a magnificent growth of trees, but commercial lumbering is inhibited by problems that increase the cost of removal. Distance to market tends to be considerable, raising costs of the high costs associated with production. Other trees are left untouched.
